

10 MILLION AMERICANS FACE THIS

AMD (Age-related Macular Degeneration) is a chronic eye disease that causes loss of the straight-ahead vision that is crucial for activities like reading or driving. AMD affects more than 10 million Americans and is now the leading cause of blindness in adults over 60 years of age.

Our office can provide you information on the risk factors for AMD, ways to minimize those risks, and treatment options. Most important of all, we can conduct the comprehensive eye health examination necessary to detect AMD.
